

## **Covid-19 Update August 8, 2021**

CDC guidelines for Covid-19, supplemented by Florida and Bay County Departments of Health recommendations, are currently in effect. Masks, except for young children, will be required to be worn at all times while inside the synagogue. Please plan to socially distance. If kippa desired, please bring your own.

Currently available EUA Covid-19 vaccines are proven safe and effective. The Temple Board of Trustees strongly encourages all eligible persons to get vaccinated unless they have a known medical condition preventing them.

The safety and well-being of all of our community members is of our highest priority and the Temple Board will continue to monitor the situation.
